IGUAZÚ FALLS POST-PROGRAM OPTION

APPROACHING PENGUINS ON A ZODIAC

**“EVERYTHING WEARS AN ASPECT OF UNREALITY,” ERNEST SHACKLETON WROTE. “ICEBERGS HANG UPSIDE DOWN IN THE SKY; THE LAND APPEARS AS LAYERS OF SILVERY OR GOLDEN CLOUD. CLOUD-BANKS LOOK LIKE LAND, ICEBERGS MASQUERADE AS ISLANDS...”**

In a place where humpback whales, leopard seals, and Adélie penguins mingle amid glimmering turquoise glaciers and sparkling icebergs, discover how normal human scales and reference points disappear amid the grandeur of nature in its most pristine form. From the long sunrises that paint the icescape in soft shades of pink and gold to the lingering light of the austral summer, Antarctica’s spectacular illuminations reveal the contrasts and marvels of the most unique place on Earth to those fortunate enough to visit.

Retrace the sea-lanes traveled by storied explorers Ernest Shackleton, Roald Amundsen, and Robert Falcon Scott as they sought out the final frontier of “The White Continent” on this extraordinary 14-day program featuring a cruise aboard the exclusively chartered, state-of-the-art, five-star, ice-class M.S. LE SOLÉAL, one of the finest vessels plying Antarctic waters.

The onboard expedition team of expert naturalists will guide you on excursions aboard sturdy Zodiac craft to explore the intricate ecosystems and marvelous nuances of the abundant wildlife found ashore, especially penguins and seals, who have no fear of humans.

**THIS IS A CO-SPONSORED PROGRAM:** Dartmouth College, Yale University, and the University of Chicago.

FRIDAY, JANUARY 27 TO  
TUESDAY, JANUARY 31

## **CRUISING ANTARCTICA**

Cruise below the 60th parallel to the outer shores and islands of the Antarctic Peninsula, Earth's last frontier. Here, explore some of the world's most pristine wilderness, where towering mountains of ice and lava create precipitous coastlines and islands, and ever-changing patterns of ice stretch as far as the eye can see. In this seemingly harsh environment, a vast array of marine wildlife flourishes, including millions of penguins, countless seabirds, and thousands of seals and whales. From spectacular volcanic topography and majestic glaciers to fascinating wildlife and historic outposts, this itinerary reveals the highlights of Earth's most inaccessible continent for the complete Antarctic experience.

*Please note that the ship's cruising pattern and positionings are dependent on weather, ice, and sea conditions and are subject to change.*

Cruise through breathtaking, glacier-lined **Neumayer Channel** to **Port Lockroy**, originally constructed in 1944 by an eight-man team as an intelligence post for British espionage during World War II and later converted into a whaling station and scientific base in the 1950s. It is nestled among glistening mountain peaks as high as 6,000 feet, and the surrounding grounds are populated by blue-eyed shags and gentoo penguins. Gain insight into the daily activities of past researchers at the living museum known as "Base A" and mail a postcard stamped with an Antarctica postmark from the official British Post Office.

Just beyond Port Lockroy, the rocky shores of **Jougla Point** on **Wiencke Island** offer a rare opportunity to view the skeletal remains of an adult blue whale and to see populous colonies of gentoo penguins and kelp gulls. Call at **Petermann Island**, the southernmost point of your journey, and watch its thriving rookeries of Adélie and gentoo penguins and blue-eyed shags.

Flanked by sheer cliffs of towering glaciers between the Antarctic Peninsula and Booth Island, cruise through the **Lemaire Channel**, offering views of seven majestic miles of mountains and wildlife combined with fascinating patterns of ice floes.

Listen for the low rumbling of Rudolf Glacier as it calves chunks of ice into **Neko Harbor**, named for an early 20th-century whaling boat. The harbor is surrounded by soaring glaciers and snow-covered mountains and is one of the most dramatic and spectacular sights in Antarctica. Here, make your first "continental landing" in Antarctica.

THE SOUTHERN GIANT PETREL

In **Paradise Bay**, awesome cliffs of ice descend from the surrounding mountains into the floating iceberg-laden waters along the western coast of the Antarctic Peninsula. Named by 19th-century whalers who sought shelter in its coves, Paradise Bay is an ideal sanctuary for marine wildlife including humpback whales, crabeater seals, and Cape petrels.

**Deception Island** is actually the rim of a massive dormant volcano crater that encircles a caldera known as Port Foster, where the ship enters through dramatic Neptune's Bellows, a sublime harbor ringed by snowcapped peaks and sheer cliffs.

In **Pendulum Cove**, see the steaming, geothermally heated waters of the Antarctic. Observe the amazing colony of tens of thousands of chinstrap penguins at Baily Head. Then walk along the black sand beaches of Telefon Bay to nearby craters, which offer fascinating insight into the volcanic activity that created the island and played a pivotal role in the natural history of the region.

One of the smallest but most beautiful of the South Shetland Islands, **Half Moon Island** is a

crispy volcanic rock formations and tranquil lagoons. It is also the site of Cámara Station, a base monitored by Argentine biologists studying regional wildlife. Here, observe the antics of the island's colony of chinstrap penguins and enjoy the lingering twilight of the Antarctic summer.

Attend the Captain's Farewell Reception. (5B,5L,1R,5D)

WEDNESDAY, FEBRUARY 1  
**CRUISING DRAKE PASSAGE / USHUAIA, ARGENTINA**

Relax and reflect on board as the ship turns north and crosses the Drake Passage. Enjoy lively, informative discussions with the ship's naturalists. Watch for endangered albatross and the many different species of petrels as you cruise across the Antarctic Convergence. (B,L,D)

THURSDAY, FEBRUARY 2  
**USHUAIA / BUENOS AIRES**

Disembark and fly to Buenos Aires. Continue on the Iguazú Falls Post-Program Option with an overnight stay in Buenos Aires or depart for the U.S. (E)

FRIDAY, FEBRUARY 3  
**U.S.**
