NEW ZEALAND BY SEA

Milford Sound to Auckland aboard *Caledonian Sky*

January 29–February 11, 2017

NEW ZEALAND BY SEA aboard *Caledonian Sky*

January 29–February 11, 2017 • (13 nights/14 days)

Explore New Zealand's magnificent natural beauty, epitomized by Milford Sound (cover); spectacular wildlife, including large and raucous royal albatrosses (above), and rare, yellow-eyed penguins (back cover); and fascinating Maori culture.

WITH ITS TIDY ENGLISH GARDENS AND UNTAMED WILDERNESS, white-suited lawn bowlers and tattooed Maori elders, austere glacial fiords and boiling volcanic mud pots, New Zealand is a spectacular country of striking contrasts. Isolated

from other land masses by the swells of the Tasman Sea and Pacific Ocean, it is a world unto itself.

Explore this remarkable country, from world-famous Milford Sound on the South Island to the city of Auckland on the North Island, aboard *Caledonian Sky*, ideally suited for cruising along craggy coastlines and into the beautiful

waters of remote and wild Fiordland. Delight in sheep-shearing and sheep-herding demonstrations at Walter Peak High Country Farm; listen for the strange “ding-dong” call of the bellbird on Stewart Island; and observe the rare yellow-eyed penguin in its natural habitat at Taiaroa Head. Learn about Maori culture near Rotorua and at the stunning Museum of New Zealand Te Papa Tongarewa, which brings to life the history of New Zealand's native people.

Throughout this adventure enjoy the expertise and insights of your Harvard study leader. Additional study leaders, local naturalists, and cultural guides will further enrich your experience. An optional post-tour excursion to Sydney, Australia, is also available.

HAA STUDY LEADER

As this brochure goes to print, we have not yet confirmed the faculty study leader for this program. We intend, however, that you will be joined by a Harvard lecturer who will enhance your travel experience. You will discover that our lecturers are not only first-rate scholars and teachers but also friendly traveling companions, eager to share their insights through conversation as well as in scheduled presentations.

ADDITIONAL LECTURERS

Neville Peat is an award-winning New Zealand writer and adventurer who has published nearly forty books on geography, biography, history, and the natural environment. He has accompanied tours of New Zealand for the past 15 years as a lecturer and guide, and always infuses travelers with his passion for and encyclopedic knowledge of New Zealand's natural wonders.

John Southard, Professor of Geology Emeritus at MIT, received his undergraduate degree from MIT in 1960 and his doctorate in geology from Harvard in 1966. He has taught numerous undergraduate courses in introductory geology, sedimentary geology, field geology, and environmental earth science.

Steven Pincus PhD '90, Bradford Durfee Professor of History at Yale, teaches 17th- and 18th-century British and European history and the history of the early British Empire. His most recent book, *The Heart of the Declaration* (2016), examines America's founding in the context of developments in the British Empire. On this voyage, he looks forward to exploring the origins of the British antipodes and New Zealand in particular.

Visit Queenstown, built around an inlet of Lake Wakatipu called Queenstown Bay in the South Island's Otago region, with spectacular views of nearby mountain ranges such as The Remarkables and Walter Peak.
