THE MEDITERRANEAN: SEA OF DESTINY
Athens to Nice aboard the Island Sky

With Benedict (Dick) Gross, Professor of Mathematics, & Jill Mesirov, Associate Director, Broad Institute of MIT and Harvard

April 27–May 10, 2015
THE MEDITERRANEAN SEA has been influenced by a succession of different cultures that have populated its shores since ancient times. During an 11-day cruise from Athens to Nice aboard the Island Sky, delve into the political, strategic, and cultural history of the Mediterranean Sea region.

Visit important archaeological sites—including the Acropolis in Athens, legendary Troy, Hagar Qim and Tarxien on Malta, and Sicily’s Agrigento. Enjoy museums rich in ancient treasures, such as the new Acropolis Museum, whose glass floor allows visitors to view the site over which it is built, and the Punic Ship Museum in Marsala, which houses the earliest known warship, dating back to 235 B.C. Visit military and naval battlefields where crucial clashes changed the course of history, and beautiful Greek temples in isolated glory far from their cultural origins.

Your experience on this fascinating Mediterranean voyage will be enhanced by presentations from your Harvard study leaders, Dick Benedict and Jill Mesirov, and a stellar team of lecturers.

**WHAT TO EXPECT**

This is a moderately active trip for travelers who are flexible, comfortable traveling with a group, and can handle the vagaries of travel with good humor. Navigating uneven terrain, walking on cobblestone pavement in small towns, and standing for up to two hours in museums or other sites are the most strenuous activities. Some locations may have stairs without handrails. In addition, travelers must be able to board the ship via a metal gangplank with rope handrails and get into/out of bobbing tenders for one shore excursion. Daytime temperatures during the trip will generally average in the mid-60s F, with infrequent rain. Participants with medical issues and/or dietary restrictions must make them known to us well before departure, and impairments regarding mobility must be disclosed prior to booking. If you have any questions about the level of activity of this program or your ability to participate, please call HAA at 800-422-1636.

**HIGHLIGHTS**
