## TANZANIA FAMILY SAFARI

DECEMBER 23, 2023–JANUARY 3, 2024

### DETAILED ITINERARY

This classic family safari heads deep into the wilds of northern Tanzania, where you'll experience an unmatched blend of world-class wildlife viewing, exhilarating nature walks, and intimate encounters with tribal culture. The adventure begins with a charter flight to a 10,000-acre private nature refuge in the Eastern Serengeti. There you will enjoy night wildlife drives, guided walks, and meetings with local Maasai people. Continue to the iconic Serengeti, where you will spend days exploring the untamed wilderness that lion, cheetah, leopard, and millions of hooved animals call home. After a visit to Olduvai Gorge, an epicenter of human evolution, descend onto the floor of iconic Ngorongoro Crater. Observe an integral part of Tanzania's ecology in the verdant hills and farmlands of the Ngorongoro Highlands. In the Highlands, you will reside at Gibbs Farm, one of the oldest working farms in East Africa, which has been converted into an award-winning eco-lodge. While at Gibbs Farm, you may explore over 50 acres of coffee fields, historic gardens, and forest—all on foot. You will also engage in a community development project with a local village.
